## *It takes a village ....*

Let's talk about the future of SRI. Just a few years ago SRI had two annual events that kept the club financially stable, the Rodeo and the over night trail ride. The overnight trail rides were canceled because the property owners had concerns about liability and due to members not committing to helping to plan the event. The rodeo was canceled this year because the club doesn't have liability coverage and the cash reserves needed to host a rodeo.

## *What can we do?*

Club members can rally together and invent a plan to ensure the future viability of the club. The current cash reserves will sustain the club for less than two years barring any emergencies. **It is critical club members, our village, come to the next meeting August 13<sup>th</sup>. Bring your ideas! This is your chance to be a part of reinventing YOUR club!**

At the June 9<sup>th</sup> board meeting a motion was made and carried to discontinue day memberships until the club secures a liability policy. Depending on the policy, this could be a permanent decision.

**Next General Meeting**  
August 13<sup>th</sup> at 6:30PM  
Everyone is

### What is PEMF?

PEMF is a revolutionary wellness modality that utilizes soothing Pulsed Electromagnetic Fields to stimulate and exercise the body's cells. PEMF is trusted worldwide to support the body's natural healing and regulating abilities. The earth emits a pulsing electromagnetic field at 7.8 hertz. This natural energy field, combined with around 8 million global lightning strikes per day, allows our planet to sustain life. Much like the earth, our bodies are electromagnetic: our brains use electromagnetic signals to communicate with every bodily system. Science has proven that if our cells have enough electrical charge, the body will heal itself!

PEMF is a holistic supplement that infuses the body with natural energy at the cellular level. The body may use that energy to:

- Heal and regenerate itself.
- Enhance its natural recovery process
- Assist with muscle fatigue and discomfort after exercise
- Increase energy or support relaxation
- Balance the body's interconnected systems

Research on PEMF is expanding because each body responds uniquely based on its needs.

### Benefits of PEMF

Do you know what your body can do when its cells are fully optimized? Rather than addressing injury, illness, or ailments, PEMF provides the body with the raw energy necessary to perform its incredible self-healing and self-regulating functions.

Due to the holistic nature of the body, the effects of PEMF can be limitless. To learn more about the benefits for humans and animals visit: [www.pulsepemf.com](http://www.pulsepemf.com).

Hello! I am Cheyenne Nau and I live in Lakeport California, I am 24 years old and I'm excited to be running for the Miss Shoreline Riders Rodeo Queen title.

When I'm not rodeoing my favorite past time is showing Icelandic horses, riding endurance, and singing karaoke. I am currently a college student and I am taking pre-requisite courses to become a registered nurse.

I would like to strongly encourage the Fort Bragg community to spend a day to watch the rodeo queen contestants compete for the title September 7<sup>th</sup> and enjoy tri-tip dinner and watch the next queen be crowned later that same day.

If you need tickets for the dinner and raffle and would like to support my efforts at being the next Miss Shoreline Riders . [cnau.macpt@gmail.com](mailto:cnau.macpt@gmail.com)
